mony was staged.

Tonight, after a bitter opposition by counsel for the defense, who chose to look upon the suggestion as an insult, the government lawyers won their first move in the trial, when Justice A. A. Hoehling ordered the jury locked up during the trial, which is expected to last until, and possibly through, the

counsel, said this was extraordinary; that in the twenty-five years of his recollection at the bar there had been only three juries locked up in non-capital cases. He said that it was a reflection on his associates and him-self, and that nothing whatever had been developed to justify such action. Henry A. Wise, chief of Fall counsel, asked the court to deny the mo-tion in the name of justice and fair-

ness. For two years the defendants had been belabored in the press, he said, and had been the object of "tyrannical abuse of legislative authority." Now, he continued, an effort was being made to single this case out as different, and the word "bribery" had

MARGINAL NOTES.

I know but too well that there is a month which brings old heartaches and scattered memories, sweet as iliacs, of a rainy moon in a ragged sky. There was a song we hummed then of a Dover road just for us and the bees, a clover road which wound around like a rover road over the hills to the sea.

A ship that we dreamed of was to be waiting there with white sails set for the southern seas and an isle called Bimini. It may be, for all I know, waiting there yet, the while we tramped on sepa-rate paths this little world from the fair Indies to the snow-copped hills of far Peru. Some day in a tavern by roads that cross we shall meet by chance for tea and we then shall talk of this and that and a kies in the wind on a gusty night that appened in the month of May.

Mrs. Frances Stevens Hall, widow of the rector, who is also on trial for the crime, smiled throughout the day of victories. Assistant Attorney General Alexander Simpson valiantly but value fought to pierce the testimony brombarding his case.

Chief among the witnesses who re-inforced Henry Stevens' alibi were Mrs. Charles S. Wilson and her daughters, Elaine and Alice. They swore that on the night of Sept. 14, 1922, the defendant was on their perch next to his home at Lavalette, N. J. They fixed the hour at 10:30 p. m. The state contends that the murder under the crabapple tree near New Brunswick was committed at 10:22 p. m.

These witnesses also accounted for Stevens' time on the following day. Miss Alice Wilson testified that from a window of their cottage she saw Ste-vens on the beach shortly before 7 a.m. Their testimony tallied in every ect with the story Stevens him self told on the stand on Saturday.

Stevens' Cook Testifies. The first person to buttress the dendant's alibi was a gentle, old woman with mild blue eyes. She was Mrs Anna Evanson, cook in the Steven-household at the time of the murder Mrs. Evanson said her employer had been at home on Sept. 14 as late as 7 p. m., when she left for the day. SOUTH AND WEST HAUGEN BILL BLOC South and West and the world has ever known. But there is not, so far as I can learn, any desirs to take these good things away from the people of the cities. Indeed, farmers like to see a high standard of prosperity along the conditions they are able to sell the maximum amount of food of good quality to the folks there. "But they do feel that the better living standards should be passed around." The Kannas beet growers are against lowering of the sugar tariff, Senator Capper said, but there is need of boosting the tariff on meats when Argentine canned beef and frozen pork tenders close and sold the agriculations are in progress to effect an alliance of western Republicans and southern Democrate for the purpose of passing at the approaching short seesion of congress the McNary Haugen bill to boost farm product prices on the domestic market. An effort to arrange this combine was made in the last session, but the southern Democrats failed to come through in sufficient number and the bill failed, chiefly because of the opposition of President Coolidge.

Cotton Slump a Stimulus.

Now that the bottom has dropped out of the cotton market as a result of overproduction of cotton, the planters and their representatives in con gress are beginning to look with favor on measures to control surpluses and stabilize prices. Advantage is being taken of this development to enlist southern support for a renewed effort to put through the McNary-Haugen

Senator Capper [Rep., Kansas] said today that he expects these negotiations to produce increased southern support for this or a similar surplus control measure. The sentiment of northern farmers for such legislation he considers stronger than ever.

ALL RECORDS BROKEN AGAIN

THE month of October set a new record for riding on the Chicago Surface Lines.

The 135,878,579 rides during the month exceeded the previous high record of last December by nearly three million.

The peak of the year in riding always comes in December due to the holiday season.

The indications are, therefore, that December of this year will be a remarkable month from the local transportation

Already this year there has been an increase of 46,741,910 rides over the corresponding period last year, and last year showed a considerable increase over the previous year.

This rapid increase in riding is significant. It indicates the growing importance of the Surface Lines in local transportation. It proves that the riding public appreciates the improvements in service, amounting to the addition of half a billion seat miles in three years.

But most of all it shows a general recognition of the efficiency of street cars in metropolitan transportation.

There is no substitute for street car service.

OF AMERICAN CORPORATIONS

To you who keep a finger upon the nation's business pulse, it has become increasingly evident that hand-to-mouth buying is here to stay. The retail merchant, no longer a warehouse for your products, demands overnight deliveries. Smaller inventories and quick turnover have enabled him to pass many savings to the public. His banker is in favor of the new scheme of things.

These things you know. And to you it must be obvious that Industry can no longer hope to serve the entire United States from any one point, however centrally located. Distanceburdened merchandise finds little favor today.

Many of you have already found the answer in decentralized production-branch plants in each of the major markets.

The South, as America's fastest growing market, merits first consideration. Your own research department will tell you that the buying power of the South has trebled in the past few years permanent prosperity that offers huge profit opportunities to American producers,

The Fourth Essential of a Banking Home

Every man has his own plan and measure of success, whether he is the head of a business, a professional man, or a young man on a salary. What each aspires to and finally accomplishes will depend largely on how his associations have quickened and inspired his efforts.

To many men and firms, broad-gauge undertaking and notable achievement have come as the result of vision inspired by daily association with broad banking experience of large caliber.

When making your choice of a banking home, consider the institution's breadth of vision, contact and facilities, as well as its close personal understanding of your problems.

Through fifty-seven years of multiplied business contacts with firms whose products reach every known market, the Union Trust Company has acquired in unusual degree the caliber and experience which men of affairs recognize as desirable.

> To you who are ambitious for a larger plan and measure of success, this Bank offers the inspiration and balanced judgment, the ample facilities and financial counsel essential to those who see their future large.

ROME, Nov. 22.-The arrest in Genoa of Capt, Giulietti, one time head of the en's federation, has ended a frande search, extending over four years, for more than 15,000,000 lire (\$600,000), esenting funds of the federation with which Giulietti absconded when that organization was dissolved and occupied by the Fascisti in 1922.

The story reads like a novel. In the period immediately after the war Capt. letti was head of the seamen's federation and the supreme arbiter of the fate of Italian shipping. Enjoying the blind trust of his followers and wielding his great political power, Italian shipping and industry was hindered by had to worse. Italian ports were gradually abandoned by international shipping, and the seamen's federation grew extremely rich, as Capt. Giulietti forced

Invisible Foundation

"Modern industry is not built upon a founda-tion of brick and mortar, stone and steel. Its real foundation is an invisible fabric of ideas" says J. H. Van Deventer in "Industrial Manage-

On this invisible foundation the business of the Standard Oil Company (Indiana) has been built. The history of the growth of this Company is a history of the development of ideas.

From the beginning, the Standard Oil Company (Indiana) has realized the importance of this invisible foundation.

It was among the first organizations to establish a research laboratory adequately equipped for scientific investigation and study—a place where ideas might be encouraged and developed and tested.

In this laboratory men of initiative and scientific training have been brought together to work out the problems of petroleum and make this great natural resource of increasing service to

In the seclusion of this laboratory, Standard Oil Company (Indiana) ideas have originated which have revolutionized the entire industry.

For example, in the research laboratory of the Standard Oil Company (Indiana) were developed the first processes for producing gasoline by cracking, which have more than doubled the yield obtained from crude oil by former methods.

These processes were leased to competitors and thus benefited the entire industry and ultimately all the motorists of the country.

Recently a new theory of scientific lubrication has been worked out in the research laboratory of the Standard Oil Company (Indiana).

This discovery has resulted in the development of a new motor oil which solves many of the lubricating problems that have baffled experts for years. The far reaching importance of this discovery to motorists cannot be overstated.

These are but two examples of revolutionary ideas originated in the laboratory of the Standard Oil Company (Indiana) which have been converted into important benefits to every motorist in the Middle West.

Every product of the Standard Oil Company (Indiana) is the result of careful scientific research backed by experience.

Upon this invisible foundation of ideas and scientific research the Standard Oil Company (Indiana) has built the sturdy structure of its vast organization to serve the 30 million people of the Middle West.

Spend it where the climate is that of June, where tropic warmth and comfort await you-Coral Gables, Florida.

Less than 40 hours' journey will bring 75 per cent of America's population from northern chill to southern sunshine in Coral Gables, where you can enjoy azure skies and the warmth of the southern seas all winter long, and where you can swim in the famous Venetian or Miami-Biltmore pools or in the surf of the South Atlantic.

Read what the last annual report of the United States Weather Bureau at Miami says about this delightful region of the only American Tropics:

"The average January temperature is the same as the average June temperature for Atlantic City, New Jersey. . . . In 1925 there was only one day entirely without sunshine. . . . The absence of extremes of temperatures, the almost unbroken procession of days with sunshine, and the prevailing ocean winds, all combine to give Miami an exceptionally favorable climate. . . .

"From December to April the weather is conducive to outdoor activities and pleasures, including surf bathing in water whose temperature is above 70 degrees."

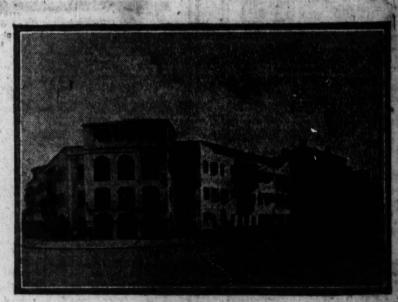

Temperatures from December 1, 1924,

TINTER is already closing in with to April 30, 1925, ranged from the lowest, VV icy grip. But you can cheat winter. 61 degrees, to the highest, 79, the average ranging from 68 in December to 72 in April—while the mercury outside of America's Only Tropics was engaged in seeing how far down in the bulb it could hide.

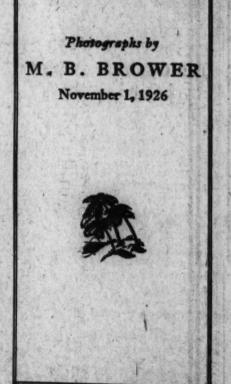

> Why pursue the unequal contest against ice and snow and frost and blizzard, when summer can be reached in two days of luxurious travel, by ocean or by rail? Coral Gables, the dominant unit of the Miami area, the Miami Riviera, challenges your attention and your demand for the utmost in comfort, warmth and outdoor enjoyment.

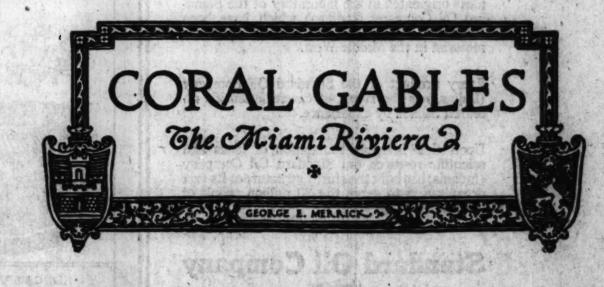

> Coral Gables' hotels are ready for their annual throng of winter visitors—ready for you with more complete accommodations than ever, at a range of prices to fit every purse. Comfortable homes and apartments are available, also. You will be able to swim, play tennis, hike, motor or ride the bridle paths of America's loveliest city, where every winter day is a day in June.

For further information inquire at our office at 164 N. Michigan Ave., Chicago, Ill., or write direct to Coral Gables Corporation, Dept. CT-1, Coral Gables, Florida. Your nearest railroad or steamship agent will welcome your inquiry.

Shine up Army Plays.

Today's drill started with kicking and forward passing and for a time the air was black with inflated pigskins. Then the men who will carry the load against the sailors were split into classes and turned over to the various assistant coaches for individual instruction. Next was a dummy scrimmage in which all the plays in the repertoire were run off. This was continued until after dark at which time the entire cadet corps was assembled on the side lines giving loud cheers interspersed with with Point songs. Some attention also was given to defense against Navy plays.

The first string players were used only for a limited time against Uresinus Saturday and all were in perfect trim today. They lined up the same as against Tale and Notre Dame. There is a possibility that Cagle, a plebe half back, may start against the Navy. White Trapnell, a star back who has been on the injured list, has been restored to good order. Hardy Juncos Defy November's Wintry Blasts

BY BOB BECKER.

Although the songbirds which spen the summer with us have migrated southward, thousands of slate colored juncos are on the job and doing their hert to brighten the winter landscape. The severe November weather of recent days has brought down a regular wave of these quiet, hardy little birds who will hobe around the middle west

until early spring. You should know the junco, as along with the jays, chickadees, nuthatches, and woodpeckers he's one of the winter group of birds that bucks storms and low temperatures in this part of the middle west. Two days ago while niking through a weed patch northwest of Chicago we ran into a flock of almost 200 of these birds, and they made a pretty picture in flight.

You can recognize the flying junco asily by the white outer tail feathers and pleasing gray and white plumage. They are tame. Toss out some crumbs or chaff and you will have no diffculty in getting them to your feed-ing station or back door.

Harry Baker Clips Record in Bowie Win

Baltimore, Md., Nov. 22 .- [Special. Senator Patrick F. Joyce's 4 year old colt Harry Baker was forced to run to a new track record of 1:44 4-5 for Autumn purse, which developed into the best contest at Bowie this afternoon. Under 108 pounds and with Abel in the saddle the English bred son of Sunstar and Bonavis clipped 2-5 of a second off the mark set by Genevive B., away back on April 10, 1914.

Harry Baker was a good thing in a field of seven and paid \$12.60 for each \$2 ticket. The race was a thriller. The B. B. stable's Apostle forced a fast early pace, with the Greenbrier stable's Mino, the favorite, in close attendance. Abel held the ultimate winner off the pace, came fast in the stretch and was up to beat L. Strube's Cannae by a head, the same distance separating the latter from Robert Odom's Light

L. J. Wylie, Decatur, was reflected president-treasurer. Other officers selected were: Secretary, Ross C. Harriott, Terre Haute; vice president, John O. Ryan, Peoria.

The club presidents voted to open their 1927 season on April 28 and close on Sept. 11, again playing a 140 game schedule.

COX SETS RECORD TO WIN EASTERN HARRIER RACE

Leads Penn State to Team Championship.

New York, Nov. 22.-(P)-Rac over the six mile course in record breaking time, William J. Cox of Roch-ester, N. Y., led Penn State harriers to their first varsity intercollegiate cross-country championship at Van

Cortlandt park today.

Cox paced a pack of 104 runners from start to mish and breasted the tape in 30:04, 30 seconds better than the mark set a year ago by Willard L. Tibbetts of Harvard. Macauley Emith of Yale, individual champion of 1924, trailed Cox in second place by 40 yards; while James Loucks of Syracuse, who was beaten by a stride in a thrilling battle with Tibbetts last year, came home third.

Penn State Wins Team Title.
The struggle for team honors developed one of the closest fights in the history of the twenty-seven year old competition, with Penn State nosing out Syracuse, 1925 champion, by three points. The official point score gave the Nittany Lions 65 to 68 for the Orange. Yale, with 95 points, was third; while Harvard went over the century mark at 102 to take fourth. Cox's performance stood out as one

Meeting Arguments With Facts

Few estimates of value can be supported. Witness the daily arguments as to the trade-in value of a used car, the inevitable litigation attendant upon the condemnation of property, or the laborious dickering involved in reaching a satisfactory price in most transfers of property.

To tell a man what his property is worth requires first of all a definite assurance that you are right and that you can prove you are right, and secondly, an unfaltering resolve to stick to the facts regardless of protestations that the re-sulting values are "too low" or "too high."

The American Appraisal Company values each day an average of 750,000 distinct items of property. It has been so engaged (on a gradually increasing volume) for thirty years. And on every single item, it realizes that there is a possibility of argument.

But the client rarely wins such an argument. The certainty of the facts which prove our valuations is the backbone of The American Appraisal Company's authority.

This proof against optimism or pessimism is important to investors and bankers, as well as to property owners

GUARANTY TRUST COMPANY OF NEW YORK, Trustee

A letter from Mr. R. A. Pratt, President of the Company, is summarised as follows:

Territory and Business: The Electric Public Service Company now serves without competition, directly through its subsidiaries, electric light and power to eighteen communities in Ohio and Oklahoma, and will serve, through a subsidiary, six communities in Colorado. Two additional communities in Oklahoma are supplied with natural gas. Findlay, Ohio is supplied with steam heat as well as electric light and power. A subsidiary furnishes electric railway service in Findlay and operates a profitable freight and passenger service between Findlay and Toledo,

Over 89% of the net revenue of the properties is derived from the sale of electricity and gas and less than 11% is derived from steam heating and rail-

Security: These Fifteen-Year 6% Secured Gold Bonds, together with the \$2,700,000 Series "A" and "B" bonds already outstanding, will constitute the senior and only secured funded debt of the Electric Public Service Company and will be, in the opinion of counsel, the direct obligation of the Electric Public Service Company. In addition, they will be secured by deposit and pledge with the trustee of capital stock of subsidiary companies representing about 91% of the total sound value of all properties owned and all of the outstanding bonds of the subsidiary companies, with the exception of \$738,000 par value. Of these \$738,000 there were outstanding in the hands of the public as of September 30, 1926, only \$384,250 par value of bonds, plus \$60,000 par value of a company to be acquired.

Appraisals by independent public utility engineers show a value considerably in excess of the total amount of bonds, Notes and Preferred Stock to be presently outstanding. These Bonds will be followed by \$1,650,000 par value of 5% and 6% Gold Notes, \$1,100,000 (par value \$100) 7% Preferred Stock and 20,000 shares of Common Stock without par value.

Proper safeguards for the issuing of additional bonds are contained in the indenture.

Earnings: The earnings of the Electric Public Service Company and subsidiaries (including those to be presently acquired) for the year ended September 30, 1926, were:

Net earnings, as above, are over 2.67 times the total annual interest requirements on all outstanding bonds of the company, including this issue; and are over 2.48 times annual interest requirements on all bonds of the company as well as annual prior charges on all securities of subsidiary companies outstanding in the hands of the public.

Purpose of Issue: The proceeds from the sale of these bonds will, in part, provide funds for the acquisition of additional property, and for other corporate purposes.

All legal details incident to this financing will be passed upon and approved by Messre. CHAPMAN, CUTLER & PARKER of Chicago. Engineering reports and valuations have been made by DAY & ZIMMERMANN, Inc., and F. W. FREEDORN ENGINEERING COMPANY. Engineering reports and valuations have been made by DAY & ZIMMERMANN, Inc., and F. W. FREEDORN ENGINEERING COMPANY. Messre. HASRINS & SELLS, Certified Public Accountants, have audited the books and accounts of the subsidiaries to be acquired for the Messre. Why Hospitals Prefer

TOWHERE is proper heating more important-more vital -than in hospitals. The welfare-the very lives-of the patients are dependent upon it. That's why so many hospitals have entrusted their heating problems to the Hardinge Fuel Oil Burner. The Hardinge can be depended upon to perform satisfactorily and efficiently day and night. Most of its working parts are submerged in oil, making it practically noiseless—an important con-sideration in hospitals. Before you buy an oil burner for your home read our free booklet, "The Plain Truth About Oil Burners." Phone or

Prosperity Is Dependent Upon Stable Business

RECENT analysis of profits of a number of representative corporations reveals that the tobacco industry has achieved a degree of success in recent years which compares favorably with that of the public utility companies, and which was not approached by any other industrial group. An average of business profits for 10 representative indus-

tries (including the utilities), using the 1919 profits as a basis of comparison, shows these results: 1919 1920 1921 1922 1923 1924 1925

The tobacco industry enjoys stability of volume and earning power since its products are items of daily necessity rather than luxuries.

BAYUK CIGARS, INC., has earned a profit in each and every year since the business was organized 30 years ago. The dividend requirements on the First Preferred stock have been earned, on an average, 41/2 times over during the last 5 years. Moreover, during this same period, excess earnings equal to \$117 a share of First Preferred stock have been added to surplus, increasing working capital and adding to the substantial equity back of this security.

movements again characterized today's curb market, but the major activity appeared to be on the up side. General Baking A advanced over two points to 56%. Several other recently neglected issues in that group advanced to new high levels for the year, including Realty Association of Brooklyn, American Plano, Estey Weite B, and Johns-Manville. Victor Talking Machine was bid up 3 points and De Forest Radio certificates climbed nearly a point.

Weakness again developed in some of the motor issues. Rickenbacker sold at 90 cents a share, as against a high of \$9.50 earlier in the year. Franklin touched a new low at 16 and Marmon at 46%. C. & G. Spring and Bumper also touched a new low.

American Light and Traction, with a gain of 4 points at 219, attracted chief attention in the public utility group.

Heavy trading in Falcon Lead, which touched a new high on buying, influenced by the reported development of complex lead sinc ores, was one of the few features in the mining group.

The bond market turned dull without losing its firm undertone. Announcement of the foreclosure sale of the St. Paul railway to the reorganization interests for \$140,000.000 started another buying movement in the bonds of the road, but after several issues had attained new high prices realizing sales began to appear. Closing quotations revealed a mixture of gains and losses.

Sugar company liens developed special strength. American Beet Sugar & jumped more than 2 points and substantial rains were recorded by most of the other refining and Cuban producing company issues. Other outstanding strong features were Granby Mining 7s, which railied 6 points, and American Ice convertible 7s, which advanced 5 points on a single sale.

Foreign obligations relinquished the leadership of the market, which they had recently held, and fluctuations in this group were unimportant. Profit taking accounted for fractional declines in the French group.

COTTON PRICES DECLINE

A bearish crop report on cotton, with 18,399,000 bales, a new record, announced at 10 o'clock resterday, started a selling movement that carried prices down 20£26 points. An almost complete recovery was had at the last on covering by shorts as the trade has anticipated more than 18,000,000 bales in recent estimates.

At the close futures in Chicago were 3 points higher to 6 points lower, with other markets 2 points lower to 2 points higher and spots unchanged, with New York 12,95c and New Orleans and Houston 12,55c. Liverpool was weak and closed 6@8 points lower. Prices in leading markets follow: CHICAGO MARKET,

Stockholders. In our article of Sunday, Sept. 19, we severely criticized the proposed plan of the management of the National Theathe management of the National lines ters corporation to exchange stock in a new company for that in the corporation. The plan then contemplated appeared to us to have a number of objectionable features which were palpably unfair to the old stockholders.

That plan has since been abandoned-after having been turned down by the securities department of the secretary of state's office and a new one has been

of state to qualify under the bine sky law, the company gives the letter which it intends to send to National Theaters

In this letter is the following sen "You may elect to receive either class A stock or class B stock."

That seems fair enough—but, in the let-"You may elect to receive either class A stock or class B stock, pro rata."

We are informed that stockholders who have elected to receive class B stock ex-clusively for their holdings have been told by the company that they cannot do so—that the "pro rata" means that they can have only 20 per cent in B and 80 per cent in A stock.

This seems to us to be a direct viola tion of the agreement under which they sought permission to sell their stock under the securities law.

As \$25 par value of class B stock has five votes to one of class A, this "prorata" business is obviously just another trick of the management to keep for itself the voting control of the company. We have forborne from giving a definite opinion upon the advisability of exchanging stock while we thought the company was working out a plan that

AREFULLY selected investments of six months or a year ago are now apt to reveal, upon careful analysis, important changes in status. The market price of one issue may have appreciated to a point where its sale is advisable. With another, the exercise of a conversion privilege may be desirable; unfavorable developments may suggest the sale of still another; or the retirement of a bond issue may have affected a well-considered plan of diversification.

Thus the ever-changing tide of business and finance demands constant and experienced consideration. No investor, unaided, is in a position to watch the multitude of influences and cross-currents which, if unheeded, may seriously impair his invested capital.

Our Supervisory Service provides unequaled facilities for the careful and thorough revision of security lists. Investors and financial institutions can secure, at a comparatively small cost, the benefit of our experience. We cannot emphasize too strongly the wisdom of having your list checked now and at regular intervals hereafter.

Central Illinois Public Service Company

First Mortgage and Refunding 5% Gold Bonds, Series E Due May 1, 1956

Price 97 and Interest, Yielding about 5.20%

Dated May 1, 1926. Interest payable May 1 and November 1 at the office of Halsey, Stuart & Co., Inc., in Chicago or New York, without deduction for Federal Income Taxes now or hereafter deductible at the source, not in excess of 5 %. Coupon bonds in interchangeable denominations of \$1,000, \$500 and \$100, registerable as to principal only.

The following is taken from a letter of Mr. Marshall E. Sampsell, President of the Company

The Company: The Central Illinois Public Service Company and subsidiary companies supplies without competition electrical energy for lighting and power purposes to 313 com-munities in central and southern Illinois; other forms of public utility service are also rendered to a number of communities. From its own generating stations, and through contracts for the purchase of power, the Company has a total available capacity of 122,815 K. W. including the capacity of its Grand Tower plant of 50,000 K. W. initial capacity. Through the development of mining and drainage business, the Company is able to utilize its investment during hours of off-peak, thus serving a total connected load far in excess of its aggregate available capacity.

Security: The Mortgage securing these Bonds covers all property now owned or hereafter acquired by the Company and is now a direct first lien on physical property representing expenditures of approximately \$14,500,000

(including the Company's 50,000 K. W. electric generating station on the Mississippi River), and will be a direct first lien on substantially all important future additions constructed by the Company. Moreover, through the pledge of bonds with the trustee, the Mortgage shares to the extent of over 53% in the lien of the First and Refunding Mortgage which is a first lien on the balance of the Company's present property, subject only to \$3,354,500 divisional underlying bonds.

Earnings: Gross and net earnings before depreciation for the twelve months ended September 30, 1926, were \$10,287,273 and \$4,214,290 respectively. Net earnings, including earnings available from controlled companies, were \$4,300,331. Annual interest charges on the Company's total bonded debt, including the present issue, requires \$1,767,670.

Management: The operations of the Company are controlled by the Middle West Utilities Company.

THEATER

"YOUNG WOODLEY": Druten: made known in Chicago (by George C. Tyler and Basil Dean) November 22, 1926, in the Black Theater, with this cast:

which do you enjoy the better, an old fashioned Thanksgiving dinner at home or at a smart hotel or restaurant?

The Answers.

Clemons Unavich, 3958 Armitage avenue, restaurant toward play about the surry when he says that he's "getting and I spend it. We would hardly know how to act in a smart hotel. And what's the use of paying the big bill when we have something just as good or better at home? Thanksgiving wouldn't be Thanksgiving unless we had dinner at home.

Miss Rose Eustace, 5300 Ellis avenue, need the surry when he says that he's "getting dammed sick of art." He doesn't underly know will fall to at noon on Trursholl when we have something just as good or better at home. Thanksgiving wouldn't be Thanksgiving unless we had dinner at home, when dinner at home with my wife, children, and relatives the dinner at home with my wife, children, and relatives. In my opinion there is nothing more inspiring than the home circle. Every thing is finished—in the home.

Mrs. R. B. Lisk, 1600 Wallen avenue, housewife,—I always have Thanksgiving dinner at home, where I seem to home.

Mrs. R. B. Lisk, 1600 Wallen avenue, housewife,—I always have Thanksgiving dinner at home, where I so well as well have the home.

Mrs. R. B. Lisk, 1600 Wallen avenue, housewife.—I always have Thanksgiving dinner at home, where I enjoy it with others. Companionship on that occasion always helps. Fine restaurants are all right but it isn't exactly satisfactory, and before the good gets to you, your appetite is likely to change.

G. L. Chellman, Park Ridge, Ill. Isalesman.—The old (ashloned Thanksgiving at home, I would say, is the most enjoyable. You appreciate the reunion with the family circle. That's the way may wife and I look at it. There is an appeal in a Thanksgiving at home family circle. That's the way may wife and I look at it. There is an appeal in a Thanksgiving at home that one cannot find in any restaurant.

Diplomat Says Name Was
Faked as Mud Slinger
[Chienge Tribuse Press Service.]
LONDON, Nov. 23.—Lord Rothermere's paper, the Daily Mail, this morning declares "The Whispering Gallery," a sensational alleged expose of
leading British public figures, is a
forgery and names Hesketh Pearson, a
writer of mipor caliber, as the forger.
The name of the diplomat which Pearson fraudulently used describing him
as the author of the book to Aian Lane,
director of the publishing firm of John
Lane & Co., is Sir James Rennell Rodd,
who was British ambassador to Rome
from 1908 to 1919.

Sir Rennell denles in an interview that he is the author of the diary from
which the book supposedly was written, declaring that he never met Pearson and had never before heard his
name.

Alan Lane said Pearson told him the
literist tamposable for the book was Sirtended in Concert

NEW YORK .- [Special Correspondnce.]-Those of us who are overweight have a new kind of scales to dread. I mean, of course, these eveost the sight of my right eye and my ning frocks which are a solid mass of left one is falling fast so I am unable scale like paillettes. O yes, here is another danger to the woman who weighs one ounce over 125 pounds, for there can be no doubt but these glittering frocks are much more becoming to the aquarium than they are to the average woman. They make us look more, rather than less.

Nevertheless, they are much in the evening picture. And today we show a charming creation-for the slimwhich is composed of alternating white and rose paillettes sewed upon a foundation of white crêpe. The skirt is di-vided into pointed panels of equal length and above this a jumper draped upward in front and downward in the back sponsors the U neck line. This latter point is emphasized by a band of the white and rose paillettes made separately from the costume and brought around the throat to fall in two tasselled streamers, each of which is finished by a tassel of rose and white beads.

Madame Jeritza was undoubtedly correct when she laconically described the new evening modes as "glittering."
When the evening frock is not solidly encrusted with paillettes, it shows a lavish use of them and even many of the new shawls have elaborate floral motifs worked out in these ornaments,
